EPH. ROUSH'S NURSERIES

FOR SPRING AND FALL

1910

1910

NURSERIES

2 1-2 Miles Northeast of Lima, R. R. No. 8

Bell Phone 2 L-2. New Phone 511-C

Phone West 1226

Eph. Roush Lima, Ohio

GENERAL INFORMATION

To those unacquainted with my nurseries, I wish to say I make a specialty of dealing direct with the farmers and planters. My trees are all grown here on my premises, under my personal supervision, and no healthier, hardier, thriftier or better stock can be grown. Anyone sending us their order can depend on having it filled with the finest selected stock, packed in the best possible manner, and given as much care as could be given it were they here to attend to it themselves.

DESCRIPTIVE CATALOG SENT FREE to anyone wishing to purchase trees. It will aid you in making up your selections.

TIME OF TAKING UP TREES—We usually commence shipping in the spring about the 1st of April, and in the fall about October 15th.

CONDITION—All articles will be labeled true to name. Not a single plant shall, intentionally, be otherwise sent out. And while we exercise the greatest care, and give our personal attention to cutting buds and securing our stock from bearing trees, should any mistake occur, and any trees not prove true to name, we will furnish trees to replace such free of charge, or will refund the money paid for any such trees that may not prove true to name, but will not in any case be held liable for any damage greater than the amount originally paid for such trees.

HOW TO COME TO MY NURSERIES FROM LIMA—Come out on the Findlay road, turn at first road going north, then turn again at first road going east; one-quarter mile east will land you at my nurseries.

CAR FARE—5c from Lima to my Nurseries.

You can come to my Nurseries on the Lima, Deshler & Toledo Traction; get off at stop 4, then come one-half mile east.

People living in Lima wishing to purchase Nursery stock and would like to see me personally, can do so by phoning or writing, telling me where to come, and when.

Nursery and Orchard Inspection

CERTIFICATE OF NURSERY INSPECTION

No. 372

Columbus, Ohio, Aug. 5, 1909.

This is to certify that in accordance with the provisions of the Nursery and Orchard Inspection Law of the State of Ohio, the nursery stock for sale by EPH. ROUSH, of Lima, Allen County, Ohio, has been inspected by a duly authorized Inspector, and has been found apparently free from dangerously injurious insects and plant diseases.

Invalid after September 15, 1910.

N. E. SHAW, Chief Inspector.

INDEXED.

APPLES

DOUR trees are extra fine this season, with plenty of good roots, straight bodies, with tops symmetrically balanced. Nothing but first-class trees used.

	Each	Per 10	Per 100
First-class, 2 to 3 years, 5 to 7 feet high25	\$2.50	\$20.00

SUMMER APPLES

Early Harvest—Medium size, round, straw color; tender, sub-acid and fine; productive. July.

Yellow Transparent (Russian Transparent)—A very early Russian apple, of good quality and decided merits; size medium; color when ripe pale yellow; sprightly, sub-acid; great bearer. July.

Maiden Blush—Large, oblate; pale yellow, with red cheeks; flesh white and tender; pleasant, sub-acid flavor. September.

Summer Queen—Medium to large; yellow streaked with red; tender, juicy; fine for cooking and eating; productive. September.

Summer Rambo—Much larger than Fall Rambo; identically the same in taste, though it ripens one month earlier.

Fall Rambo—Medium; yellowish, streaked with dull red and somewhat dotted; mild, tender and good. Fine grower, productive; more especially valuable in the West. October to December.

Bailey Sweet—Large; deep red, tender, rich, sweet; vigorous, upright, good bearer. October to November.

CRAB APPLES

Transcendent—Medium to large; golden yellow, with a rich crimson check; flesh yellow, crisp and when fully ripe, pleasant and agreeable; perfectly hardy; young and abundant bearer. September and October.

Hyslop—Large, produces in clusters; deep crimson with bluish bloom, popular on account of its beauty, productiveness and hardiness. Sept. and October.

WINTER APPLES

Baldwin—Large, roundish; deep bright red; juicy, crisp, sub-acid, good flavor; very productive of fair, handsome fruit; one of the best and most popular Winter apples. January to April.

Grimes Golden (Grimes' Golden Pippin)—An apple of the highest quality, equal to the best Newton; medium to large size; yellow; productive; grown in Southern Ohio. January to April.

Rome Beauty—Large size; yellow, shaded with bright reddish-yellow; juicy, sub-acid. November to February.

Northwestern Greening—This apple is the best keeper we have—keeping in good condition generally till May. The apple is very large and of beautiful form, and being of fair quality is bound to become very popular. The tree when young, is a fine up-right grower; spreading top when bearing.

Rhode Island Greenings—Large, greenish yellow; tender, juicy and rich, with rather an acid flavor; an abundant bearer. December to April.

Missouri Pippin—Medium to large; pale, whitish yellow, splashed with light and dark red; flesh whitish, crisp, moderately juicy, sub-acid. January to April.

York Imperial—Medium, oblate; white, shaded with crimson; flesh firm, crisp, juicy and sub-acid. A good bearer and keeper; one of the best winter apples. November to April.

Wagener—Medium to large; deep red in the sun; flesh firm, sub-acid and excellent; very productive, bears very young. December to May.

Wealthy—A new variety from Minnesota; healthy, hardy and very productive. Fruit medium, oblate, skin smooth, whitish yellow, shaded with deep red in the sun, splashed and spotted in the shade. Flesh white, fine, tender, juicy, lively, sub-acid, very good. December to February.

Northern Spy—Too well known to need description. Crisp, tender, high quality; fine shape, beautiful coloring; red, unusually striped, sub-acid. Takes 8 to 10 years to come into bearing, but very productive after that. Nov. to March.

Ben Davis—Large, handsome, striped, productive, a late keeper. December to March.

Fallawater (Tulpehocken, Pound, &c.)—A very large, dull red apple, of good quality, productive. November to February.

Yellow Bellflower—Large, yellow, with pale blush; very tender, juicy, sub-acid; in use all winter. November to April.

Russet, Roxbury or Boston—Medium to large, greenish or yellow russet; crisp, good sub-acid flavor; productive. Very popular on account of its long keeping. January to June.

Pewaukee—Fruit medium to large, surface bright yellow, partially covered with dull red, striped and splashed and overspread with whitish dots; flesh juicy, flavor sub-acid, rich, aromatic, spicy; quality good to best. Nov. to Dec.

PEAR TREES

	Each	Per 10	Per 100
5 to 7 feet high, 2 and 3 years old, very fine.....	.40	\$3.50	\$30.00

Bartlett—Large size; often with a beautiful blush on the sunny side; buttery, very juicy and highly flavored. Very popular variety. September.

Duchess d'Angouleme—Very large, dull greenish yellow, streaked and spotted with russet; flesh white, buttery and very juicy, with a rich and very excellent flavor. October.

Flemish Beauty—Large, beautiful, juicy, melting, rich and fine, good bearer, hardy everywhere. September.

Kieffer's Hybrid—Tree a remarkable grower, with so vigorous a constitution that it rarely if ever blights. Fruit of fine size, rich color and good quality. Brings high prices in competition with other varieties. Best when picked at maturity and house ripened. October and November.

Seckel—Small size, yellowish-brown, red cheek, melting, buttery, none better. September.

PLUMS

	Each	Per 10	Per 100
Plum on plum roots, first-class, 5 to 7 feet.....	.40	\$3.50	\$30.00

Abundance (Botan)—An old well-known and popular Japanese variety, hardy and productive, large fruit, lemon yellow in color with heavy bloom, good quality. August.

Lombard—Bleecker's Scarlet—Medium, round, oval, violet red, juicy, pleasant and good, adheres to the stone, productive. A valuable market variety, one of the most hardy and popular. August.

Burbank—The best and most profitable Japanese variety for market. Ripens ten to fourteen days after Abundance, hardy, tree sprawling, vigorous grower, unequaled in productiveness, bears young, fruit large and of excellent quality, cherry red with lilac bloom. August.

Shipper's Pride—Large, dark purple, very showy, often measuring two inches in diameter, fine, juicy and sweet. September.

Shropshire Damson—A plum of fine quality, as free from attack of the curculio as the common Damson, and of same color. The flesh is amber colored, juicy and sprightly. September.

Green Gage—Small, considered the standard of excellence for quality. Aug.

CHERRIES

	50	Each	Per 10	Per 100
First-class, 4 to 5 feet high.....	50	.40	\$3.30	\$30.00

Early Richmond—Medium size, very light red, melting, juicy, acid flavor. There is no better cherry. Ripens first of June, bears abundantly every year.

Dyehouse—Partakes of both the Duke and Morello in wood and fruit, a very early and sure bearer, ripens a week before Early Richmond, of better quality, and quite as productive. June.

Large Montmorency—Large, dark red, acid. Larger than Early Richmond and ten days later, splendid bearer. Last two weeks of June.

May Duke—Large, dark red, juicy and rich, an old excellent variety, productive. June.

PEACHES

	Each	Per 10	Per 100
First-class, 4 to 6 feet high, 1 year, very fine.....	.20	\$1.80	\$15.00

Elberta—This very beautiful and best of yellow peaches is highly esteemed for market purposes. Fruit very large, oblong, skin yellow, with fine red cheek, fleshy yellow, juicy, sweet and excellent. Wonderfully productive and hardy. Sept.

Crawford's Late—Fruit of largest size; skin yellow or greenish yellow, with dull red cheek, flesh yellow, productive. One of the finest late sorts. Last of September.

Crawford's Early—A superior yellow peach, none better. Last of July. Free.

Crosby—Very hardy, abundant bearer, size medium, color bright yellow, very fine quality. Middle of September. Free.

Mountain Rose—Large size, whitish skin, richly splashed with light and dark red, flesh white and delicious in taste.

Triumph—Ripens with Alexander, blooms late, sure and abundant bearer, the only real early peach with yellow flesh. July. Almost a freestone.

Alexander—Early, medium to large in size, greenish white, nearly covered with deep, rich red, flesh melting, juicy, sweet, tree hardy and productive. Cling.

QUINCES

	Each	Per 10	
2 year, 3 to 4 feet.....	.40	\$3.50	

Orange Quince—Large, roundish; bright golden yellow; cooks tender and is of very excellent flavor. Valuable for preserves or flavoring; very productive; the most popular and extensively cultivated variety. October.

MULBERRIES

Downing's Everbearing—The berries are very large, black, handsome, sweet, rich, excellent in every way. 4 to 5 feet. Each 6oc.

New American—Equal to Downing's in all respects, and a much hardier tree, vigorous grower, very productive, the best variety for fruit, ripe from the middle of June to the middle of September. 4 to 5 feet, each 6oc.

Russian—Very hardy, vigorous grower, valuable for feeding silk worms, etc. Fruit of small size, varies in color from white to black. 4 to 5 feet, each 4oc.

CURRANTS

	Each	Per 10	Per 100
Fay's Prolific, 2 years, great bearer, stem longer than cherry.....	.10	\$1.00	\$ 6.00
Cherry, 2 years, the largest of all the red currants.....	.10	1.00	6.00

GRAPE VINES--All First-class Plants.

Concord—The best known of all grapes, deserves all the good things that are said about it. A large, purplish-black grape, ripens middle to last of September, vines remarkably vigorous and free from disease, most popular market variety, 2 years. Each 10c; per 100 \$6.00.

	Each	Per 10	Per 100
Moore's Early, 2 years, ripens 10 days before Concord.....	.15	\$1.50	\$ 8.00
Niagara, the best white, 2 years15	1.50	8.00

BLACK RASPBERRIES

Per 100, \$1.50 Per M., \$10.00.

Cumberland—“The Business Blackcap.” It is of wonderful productiveness, producing regularly very large crops. In size the fruit is simply enormous, surpassing any other variety. The berries run seven-eighths of an inch in diameter. In quality it is similar to the Gregg. Although extremely large, it is unusually firm and is well adapted for long shipments. In ripening it follows Palmer and precedes Gregg a short time, making it a mid-season variety. It is an unusually strong grower, throwing up stout, stocky canes, well adapted for supporting their loads of large fruit.

Gregg—Black—Old reliable market variety. The fruit averages large, and regular crops are to be depended upon. It is an excellent shipper. Hardy.

Kansas Black—A valuable early blackcap, so strong and hardy as to endure extremes of cold and drought and yet bear heavy crops. The berries are large, showy, firm, of best quality, selling for the best prices. One of the best for the market, and a good shipper.

Eureka Black—Very large and productive, canes strong and hardy, one of the best.

Cuthbert—Red—A favorite variety both North and South, standing extreme hot and cold weather equally well, the berry is large, crimson in color, flavor sweet, luscious. 12 for 25c; 100 for \$1.50.

STRAWBERRIES

Per 100, \$1.50 Per M., \$4.00.

Senator Dunlap—A well-tested, wonderfully productive variety, one of the safe sorts to plant everywhere and sure to take a high place among the prominent standard sorts. Plant resembles Warfield, rampant runner, should be restricted in its production of plants, fully equal to Crescent and Warfield in its ability to succeed under all circumstances. Fruit good size, regular form, beautiful bright red, glossy, firm, splendid keeper and shipper, excellent quality, one of the best for canning, ripens early and continues a long time. It promises to stand at the head in its wonderful ability to ripen a good crop under almost any condition of drought or neglect. Perfect.

Warfield (P)—Its great beauty, firmness, earliness, good flavor, productiveness and vigor make it exceedingly popular. Ripens with Crescent, and is superseding that variety for a reliable market sort.

Haverland (P)—A fine grower, very productive, one of the leading early market sorts. Berries uniform, long, medium size and quality good.

Gandy—A reliable late variety, berries bright crimson, very uniform in size and shape, large and firm, plants vigorous and healthy.

Clyde—Large berries, very productive.
